SUTRO'S GENEROSITY.

He Gives the City of Carson 1,000 Trees for Arbor Day.

A few days ago the editor of the APPEAL wrote to Mr. Adolph Sutro, asking him on behalf of the school children and citizens of this city, for a contribution of trees for Arbor Day. Yesterday the following response was received:

SAN FRANCISCO, March 24.
Mr. Sam Davis, Morning Appeal, Carson, Nev: DEAR SIR:—Your favor of March 23 has duly come to hand.

I shall take pleasure in sending you one thousand small pine trees of the species *Pinus Maritima*. I think they will do well in Nevada. This is all I have on hand now.

There is no State in the Union which requires tree planting more than the State of Nevada, and I am greatly pleased to see that you have an Arbor Day. I shall try to forward them by Wells, Fargo & Co's. express about April 11, so they may reach there on the 12th.

These little trees will have to be handled with great care, and the roots not exposed to the air until planted.

With many regards I am
Very truly yours,
ADOLPH SUTRO.

The APPEAL would suggest that the citizens make some public acknowledgment of Mr. Sutro's gift to the city, and that the School Board make preparations to have the day observed by the school children and everybody else who is willing to take a hand, in such a manner as to make it a memorable day for Carson, and a day that will be celebrated each year in a fitting manner.

If this species of pine proves adapted to Nevada soil and climate the beauty of this city can be materially added to in the next ten years. The gift of 1,000 trees will enable each child in the public schools to plant one, and leave a good many more for private citizens to plant. There should be one of these trees planted in each yard in Carson.

Yesterday's Runaway.

Yesterday afternoon at 4 o'clock, a large horse belonging to George Oliver came galloping down the street with the remnants of his harness hanging to him. He took the left side of Main street, going North, and occasionally taking the sidewalk, frightening women and children out of their wits. At Sweeney's he ran foul of "Baldy," Sweeney's trotter and knocked down some signs and awning posts. Baldy ran away at a break neck while Oliver's horse rolled over on the sidewalk. Baldy stopped in a few minutes and walked back.

The runaway, recovering, ran past the depot, and circling round the town, in about ten minutes came down the street again, taking the same course. He ran into Circe's trotter, nearly knocked Robert Clarke's horse out, and seemed about to run into the freight train below the Mint. The cars were uncoupled, and left a gap through which the horse went like a deer, and when last heard of was heading for the Hot Springs.

A Good Law.

An Act was passed during the late session of the Legislature, was approved, and is now in force, "to enforce the protection of life in certain cases."

It requires all public edifices, such as court houses, school houses, church buildings, theaters, and other places wherein the public usually assemble in large bodies, to have the doors thereof, which are the means of ingress and egress, swing outwardly, or both inwardly and outwardly. The Act requires that all buildings of the above character, in existence when it took effect, not conforming to the requirements, shall be made to do so, on or prior to July 1st, 1887. A heavy penalty of fine or imprisonment, or both, is affixed for violation of its provisions, the observance of which is likely to save many lives.

Esther Chapter, No. 3.

Esther Chapter, No. 3. Order of the Eastern Star, will celebrate its first anniversary on Monday, the 23rd inst. at 8 o'clock p. m. to which all members, and visiting members, of Carson Lodge No. 1. F. and A. M. with their wives, daughters, mothers, widows and sisters, as well as all visiting members of the O. E. S. are cordially invited.

IS THERE ANY HOPE?

NEW AND IMPORTANT OPINIONS OF PULMONARY EXPERTS!

Can the Universal Consumption be Successfully Treated?

Dr. Borgeon, a leading French doctor, has a new treatment for consumption!

He gives an enema of carbonic acid and sulphuretted hydrogen gases, the latter gas carrying the former into every part of the throat and lungs. This treatment, too, is directed at effects—the cause remains undisturbed.

What this cause is has been stated by perhaps the highest pulmonary authority in the world, i. e., the Brompton Hospital for Consumptives, in London, Eng.

This malady every year carries off from one-seventh to one-fifth of the entire population of England!

Dr. Payne, M. D., M. R. C. P., London, is authority for this statement. The same or a greater proportion of deaths obtains in America.

Dr. Payne also says that one-half the total number of deaths from all other causes have seeds of this disease in the system which only require some irritant to develop!

Dr. Hermann Brehmer, an eminent German authority, says that consumption is caused by deficient nutrition of the lungs, by poor blood.

These authorities cannot be disputed. The medical world recognizes them. The uric acid is the irritant in the blood that causes the development of the seeds which Dr. Brehmer says lie dormant in the blood.

Every particle of blood which passes through the lungs and heart, also goes through the kidneys, and if they are in the least deranged they cannot rid the blood of its killing poison. The thousand little hair-like sewer tubes of the kidneys very easily get blocked up and diseased; and when they do, they corrupt instead of purifying the blood. Kidney disease may exist, and yet no pain occur in that organ, because it is deficient in nerves of sensation.

Dip your finger in acid every day and it soon festers and is destroyed. Send acid poisoned blood through the lungs every second, and they soon give way.

The Brompton Hospital investigation showed that 52 per cent. of the victims of consumption were afflicted with deranged kidneys, which permitted the uric acid poison to remain in the blood and irritate the lungs. This uric acid is always fighting every vital organ, and if there be any inherent weakness in the lungs it inevitably causes pneumonia, cough and consumption.

The real cause of pulmonary troubles being so authoritatively shown to be faulty even though unsuspected action of the kidneys, explains why, in order to master the dreaded consumption, one must rid the blood of the uric acid irritant which inflames and burns up the lung substance. For this purpose there is nothing equal to that great specific, Warner's safe cure. This remedy has now the favor of medical men all over the world purely on its merits. We have no doubt that if the kidneys are kept in natural action, consumption and a great many other diseases, caused by uric-acid, will not only be cured but will be prevented.

When the kidney is healthy, no albumen appears in the water, but albumen is found in the water of more than half of those who die with consumption!

This, then, is the condition of things that always precedes consumption: First, weakened kidneys; second, retained uric acid, poisoning the blood; third, the development of disease in the lungs by the irritant acids passing through them. Then there is a little cough in the morning; soon thick, yellow matter is spit up, followed by loss of flesh and strength, with dreadful night sweats; and when the patient goes to his school physician for help, he is put on cod liver oil which his stomach, weakened also by uric acid in the blood, cannot digest. Because there is no pain present in the kidneys, the patient does not think they are affected, but the kidney acid is doing its work every minute, every hour, day and night, and by-and-by the disease of the lungs has advanced until pus is developed, then come hemorrhages, and at last the glassy star which denotes that the end is near!

A post-mortem examination of such cases shows that the terrible uric acid has completely destroyed the substance of the lung.

It is impossible to cure lung disease when the blood is poisoned with uric acid.

Klein's Home Beer.

The APPEAL again finds it necessary to drink to the health of Jacob Klein and thank him for a kee of his home brewed domestic manufacture Spring beer. There is beer and then again ther's beer; ther's the slop-slop beer, the bad Boca beer the San Francisco five-cents-a-glass-and-dear-at-that beer and the Home-brewed-nectar-of-the-Tuton-gods-beer made by Jake Klein. See how it sparkles, this drink divine.

Drank by all sagebrushers, made by Jake Klein.

Go where you will and memory holds dear.

The taste and the color of home-made beer,

It drives away care as one drives away flies,

And lifts up the soul to abide in the skies.

[When you send the cart around roll the keg in the back way when there isn't much of a crowd around —Ed.]
